WESTERN GOLD FILES FINANCIAL STATEMENTS FOR Q1 2021

For Immediate Release

North Berwick, Scotland

May 27, 2021

WESTERN GOLD EXPLORATION LTD. (TSX Venture – WGLD) (the “**Company**”) is pleased to announce that it has filed its interim consolidated financial statements and Management’s Discussion and Analysis (“MD&A”) for the three months ended March 31, 2021, which can be found under the Company’s profile on SEDAR (www.sedar.com).

During the three months ended March 31, 2021 (“Q1 2021”) the Company continued to advance its exploration and evaluation of its mineral properties in Scotland. The impact of COVID-19 restrictions and repercussions from the cyber-attack on Scotland’s Environment Protection Agency, (“SEPA”) extended, to the end of March 2021, the process for the Company to obtain the required approvals for the drilling campaign. Government imposed COVID-19 restrictions in the UK eased in Q2 2021, which enabled the Company and its contractors to commence the drilling campaign.

As previously announced, this drilling campaign includes eight diamond drill holes of 150 to 200 metres depth each, for aggregate drilling of 1,360 metres, which will be used to evaluate the economic potential of the Stronchullin quartz-gold-silver-base metal veins in the vicinity of the historic gold mine.

Scout drilling undertaken in 2017-2018 at Stronchullin intercepted narrow, high grade quartz-gold-silver-base metal veins in four of the seven drillholes. Further details can be found in the Company’s most recent MD&A and in the “NI 43-101 Technical Report, Geological Introduction to Knapdale Gold-Silver Project, Scotland” with an effective date of June 12, 2020, which can be found on the Company’s website or under the Company’s SEDAR profile.

Ross McLellan, Chief Executive Officer commented: *“The Company is pleased that the first few weeks of diamond drilling at Stronchullin have progressed as expected and we look forward to advancing the exploration work as planned.”*
